Orbit Digital - Response to RFP-2026-017

RFP-2026-017: Supplier Contract Management Platform. The buyer needs a cloud platform to store contracts, track obligations and renewals, integrate with its ERP and identity provider, and go live within 6 months for about 800 users.

1. Executive Summary and Understanding of the Requirement

Orbit Digital has delivered contract and document platforms for large organisations for over 15 years. We are confident we can meet the objectives of RFP-2026-017.

Our proposal highlights our experience and references.

2. Proposed Solution and Implementation Approach

Architecture: a mature platform with a flexible integration layer. We will integrate with the customer's ERP and other systems as needed using our standard approach.

Details of the interfaces will be agreed during the design phase. Single sign-on will be supported.

3. Timeline, Team Structure and Milestones

Estimated duration 6 months, subject to design outcomes. Main phases: design, build, test, go-live. Detailed milestones will be confirmed after kick-off.

Team: a project team of suitable size will be assigned.

4. Price Table and Assumptions

Item	Cost (USD)
Licences, 800 users, 3 years	540,000
Implementation services	250,000
Data migration and training	45,000
Total (3 years)	**835,000**

Assumptions: Prices are indicative and exclude taxes. Integration effort is estimated and may change after design.

5. Security, Compliance and Risk Controls

ISO 27001 and SOC 2 Type II certified. Data is encrypted and access is role-based. Audit logs are kept for 3 years.

Penetration tests are performed every two years.

6. Support Model, Relevant Experience and References

24x7 support with a 1-hour response for severity 1 and a 99.9% uptime SLA.

Experience: over 60 deployments across 12 countries, including 20 with more than 1,000 users. Five detailed references are provided with contact details, including a government agency and a pharmaceutical company.
