Vertex Solutions - Response to RFP-2026-017

RFP-2026-017: Supplier Contract Management Platform. The buyer needs a cloud platform to store contracts, track obligations and renewals, integrate with its ERP and identity provider, and go live within 6 months for about 800 users.

1. Executive Summary and Understanding of the Requirement

Vertex Solutions offers a feature-rich contract analytics platform with strong automation and an experienced engineering team. We understand the RFP asks for obligation tracking and ERP integration.

We believe our product is the most advanced technically, and we are competitively priced.

2. Proposed Solution and Implementation Approach

Architecture: cloud-native platform with built-in contract analytics, clause extraction and an open API. Prebuilt connectors exist for two ERP systems; the customer's ERP is not named in our response and will be assessed later.

Single sign-on via SAML and OIDC is supported. Scalability testing results are available but are not included in this document.

3. Timeline, Team Structure and Milestones

Estimated duration 5 months. Milestones are listed at a high level: setup, configuration, integration, go-live.

Team structure: a delivery manager and engineers, with exact numbers to be confirmed. No risk plan is included in this response.

4. Price Table and Assumptions

Item	Cost (USD)
Licences, 800 users, 3 years	430,000
Implementation services	190,000
Total (3 years)	**620,000**

Assumptions: Data migration, training and support are not included in the figures above and will be priced separately.

5. Security, Compliance and Risk Controls

ISO 27001 certified. Data is encrypted in transit and at rest. SOC 2 is not yet held.

Privacy and auditability controls are described in our standard security whitepaper, which is not attached.

6. Support Model, Relevant Experience and References

Support hours and response times will be agreed in the contract. A community forum and online documentation are available.

Experience: 12 customers, mainly in software and media. Reference details are available on request.
